

XStreme Vapor Technology

New vapor power and a major breakthrough from Ecolo brings you an extreme dry odor control experience.

The Power of Going Water-Free

Ecolo's brand new XStreme™ Vapor Systems have been developed to provide industry leading output of ultra-dry particles. Millions of these smaller, lighter, waterless particles increase the opportunity for greater collision and absorption with odor molecules. Compared to conventional misting, the ultra-light particles of water-free XStreme™ Vapor Solutions are able to easily disperse throughout all corners of an enclosed space for uniform coverage and odor treatment intensity.

24/7 Odor Protection for Peace of Mind

XStreme™ Vapor Units have been developed exclusively for use with Ecolo's AirPro™ multi-zone, pneumatic misting systems to produce completely dry particles of waterless XStreme Solutions 24/7. Different zones can be programmed individually with AirPro with no down time for ultimate odor protection.

Year Round True Odor Neutralization

Unlike scents or masking agents, XStreme™ Vapor Solutions are highly concentrated odor neutralizers that react with airborne malodors for permanent removal of the odor. They are common to AirSolution™ which contain complex blends of essential oils and odoriferous organic compounds, but functions well in below-freezing temperatures for year round applications.

WE ARE COMMITTED TO PRODUCT QUALITY AND SAFETY, AS ALWAYS

With 40+ years experience in the odor control industry, customers in over 40 countries continue to acknowledge Ecolo's highest standards of product quality and service. Ecolo's products are always safe for preparation and use. They are backed up with the most current toxicology reports (eye, oral, inhalation and dermal irritation/corrosion).

WE DELIVER 40+ YEARS OF TRUSTED SERVICE AND REPUTATION

Our highly trained service team carefully look after every installed system to make sure you consistently get the best odor control. Our well-equipped fleet of vehicles and carefully managed service intervals ensures seamless maintenance of your system, 24/7, 365 days a year. If for any reason you need us at your site, give us a call and we will be there within 24 hours to address your concerns. We take great pride in resolving odor issues and earning your business.

WE PROVIDE UNBEATABLE RESULTS AT AN INCREDIBLE VALUE

Today's modern facilities are much more difficult to manage and the odor issues can be complex. Backed with our ongoing R & D efforts, this breakthrough technology from Ecolo combined with a highly trained professional service team will definitely leave you nothing but a pleasant environment and peace of mind. Most importantly, this is all available at an incredible value.
